

Uber for Business

Support your employees with commute programs and meal deliveries

Uber for Business has solutions to help you manage employee commutes, meals, and more with safety as a top priority—all from a single dashboard that you control. Help keep your employees comfortable and productive as they navigate work in a COVID-19 world.

Reimagine the daily commute

Give employees peace of mind

By providing your employees with rides, you offer an alternative to buses, trains, and company-provided shuttles. This gives workers some peace of mind as times remain uncertain.

Customize your commute plan

A [customized commute program](#) can be stress-free and affordable. Subsidize all or part of the program, use [Vouchers](#) to give employees flexible ride options and pay only for what gets used, or request rides for employees with [Central](#).

Feed your employees

Help boost morale with Uber Eats

Encourage social distancing and boost morale with a [meal program](#) that allows your employees to order food on Uber Eats. Set customized parameters around budget, delivery locations, days and times, and expense codes.

Pay as you go with Vouchers

[Vouchers](#) can help you create spending limits, monitor costs, and gain insights into overall usage. You can also gift your employees with vouchers to show appreciation.

Commitment to safety

Door-to-Door Safety Standard

Drivers and delivery people are asked to confirm that they've taken certain safety measures and are wearing a mask or face cover. Riders must also confirm that they're wearing a mask and taking other precautions.

\$50 million for PPE

Uber has made a \$50 million commitment to provide drivers and delivery people with safety supplies such as masks, hand sanitizer, gloves, and/or disinfectant wipes. Some also received reimbursements for their own purchases of these supplies.
